What is this product?

Type

The product is a share class of FTGF Franklin Responsible Income 2031 Fund (the "Fund") which is part of the Franklin Templeton Global Funds plc, an investment company with variable capital incorporated with limited liability in Ireland and established as an umbrella fund with segregated liability between sub-funds.

Term

2031 ("Maturity"). Before the Fund's Maturity, the Investment Manager will write to investors setting out the options available to them which may include, but are not limited to, the liquidation of the Fund, a switch or merger into Shares of other Funds of the Company or other UCITS of the Franklin Templeton group or a change of the investment objective and policy. Management company: Franklin Templeton International Services S.à r.l. is not entitled to terminate the fund unilaterally.

Objectives

Investment Objective

The Fund's goal is to generate income while seeking to preserve capital.

Investment Policy

The Fund mainly invests in corporate and government debt securities denominated in EUR. These investments may be from anywhere in the world, including, to a lesser extent, emerging markets. The investments may also be investment grade and below investment grade.

The Fund will pursue its investment objective and policy for a period of five years following its launch (the "Maturity Date").

In the period leading up to the Maturity Date in 2031 (the wind-down period), the Fund may gradually shift its investments to money market instruments and other cash-like assets.

Derivatives and techniques The Fund may use derivatives for reducing risks (hedging) and costs, and to generate additional income or growth (in accordance with the risk profile of the Fund).

Strategy The investment manager uses Fundamental analysis to identify issuers with a robust business model and credit profile, and select securities that appear to offer high real yields for their risk level.

SFDR category Article 8 (promotes environmental and/or social characteristics under EU regulations).

The investment manager applies a proprietary rating methodology using various ESG criteria to assess long-term opportunities and risks. The fund excludes issuers lagging in the transition to a low-carbon economy and excludes or restricts investments in certain industries that are harmful to the environment or society, such as thermal coal, weapons and tobacco.

For more information see www.franklintempleton.ie/50532.

Base currency Euro (EUR).

Benchmark(s) None.

The Fund is actively managed without reference to a benchmark.

Share Class Policy

For this share class all, or some portion of, net income is declared and paid monthly to shareholders.

Buying and selling shares

You may normally buy or sell shares on any day banks are open for business in England.

Intended retail Investor

Investors who understand the risks of the Fund and plan to invest until the Fund's maturity date. The Fund may appeal to investors who:

- are willing to hold an investment until the Maturity Date
- are looking for income from an investment that seeks to preserve capital
- are interested in exposure to Euro denominated global bond markets as part of a diversified portfolio
- have a low to medium risk profile and can tolerate moderate short-term changes in the share price

Product availability The Fund will remain open for a limited period, after which it will be closed to new investors and will no longer accept additional investments from existing shareholders.

Terms to understand

bonds, below investment grade: Bonds represent an obligation to repay a debt, along with interest. Below investment grade bonds generally pay higher interest rates but are considered less likely to make all scheduled payments or repay the initial debt.

derivatives: Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

emerging markets: Markets of less economically developed nations, such as some nations in Asia, Africa, Eastern Europe and Latin America.

money market instruments: Financial instruments designed to provide stable value, interest, high liquidity and a very low risk of loss.

Depositary

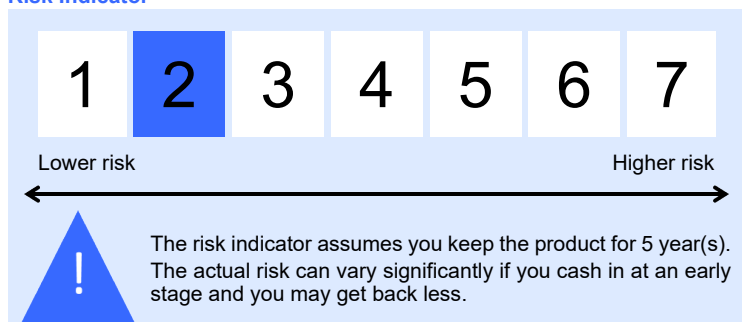

Bank of New York Mellon SA/NV, Dublin Branch

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payment in a different currency, so that the final return you get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the product not included in the summary risk indicator:

- Credit risk
- Risk of High Yield Securities
- Sustainability risk

For the other risks applicable to this Fund, please refer to the Primary Risks section of the Fund supplement contained within the prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years

Example Investment: 10000 EUR

Scenarios	Returns	If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	-	-
Stress	What you might get back after costs	8 260 EUR	7 690 EUR
Stress	Average return each year	-17.40%	-5.12%
Unfavourable	What you might get back after costs	8 360 EUR	9 250 EUR
Unfavourable	Average return each year	-16.40%	-1.55%
Moderate	What you might get back after costs	10 360 EUR	11 120 EUR
Moderate	Average return each year	3.60%	2.15%
Favourable	What you might get back after costs	11 700 EUR	12 930 EUR
Favourable	Average return each year	17.00%	5.27%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between September 2017 and September 2022.

Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between December 2019 and December 2024.

Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between March 2020 and March 2025.

What happens if Franklin Templeton International Services S.à r.l. is unable to pay out?

Franklin Templeton International Services S.à r.l. ("FTIS") is the management company of the Fund, but the assets are held separately from FTIS by the depositary. BNY Mellon SA/NV Dublin Branch, as the appointed depositary of the Fund, is liable to the Fund or its shareholders for any loss of financial instruments held in custody by it or its delegates (cash could however be lost in case of default of the depositary or its delegates).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10 000 is invested

Costs over Time	If you exit after 1 year	If you exit after 5 years
Total costs	231 EUR	623 EUR
Annual cost impact (*)	2.3%	1.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.2% before costs and 2.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount. Please note that the figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed.

Composition of Costs

One-off costs upon entry or exit	Description	If you exit after 1 year
Entry costs	1.50% of the amount you pay in when entering this investment.	Up to 150 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year	Description	If you exit after 1 year
Management fees and other administrative or operating costs	0.75% of the value of your investment per year. This is an estimate based on actual costs over the last year.	75 EUR
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	6 EUR
Incidental costs taken under specific conditions	Description	If you exit after 1 year
Performance fees (and carried interest)	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years following the Fund's launch/until 2031 ("Maturity").

This Fund has no minimum required holding period. We consider that the 5 year recommended holding period is appropriate because the Fund is designed for long-term investment. You may sell your shares on any dealing day. The value of your investments may go down as well as up irrespective of the period you are holding your investments, depending on such factors as the performance of the Fund, movements in stock and bond prices, and conditions in financial markets generally. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

How can I complain?

Investors who would like to receive the procedures relating to complaints handling or wish to make a complaint about the Fund, the operation of FTIS or the person advising on or selling the Fund, should go on the website www.franklintempleton.lu, contact Franklin Templeton International Services, S.à r.l., 8A, rue Albert Borschette L-1246 Luxembourg, or send an e-mail to the client service department at service.Lux.franklintempleton@fisglobal.com.
